

What is a CPESC?

A CPESC is a recognized specialist in soil erosion and sediment control. The certification program, sponsored by the Soil and Water Conservation Society and the International Erosion Control Association, in cooperation with the American Society of Agronomy, provides the public with evidence of professional qualifications. This designation is given to specialists who have met established standards of expertise, experience and knowledge.

CPESC Certification Benefits

- ◆ Enhance your professional credibility
- ◆ Promote public awareness of the erosion and sediment control profession
- ◆ Have greater influence on policy decisions affecting technical and professional issues.
- ◆ Gain access to unique sources of information and educational opportunities.
- ◆ Improve your career by making more professional contacts.

CPESC Course Outline

- Section 1: Rules and Regulations
- Section 2: Site Planning & Management
- Section 3: Erosion Prevention
- Section 4: Runoff Control
- Section 5: Soil Stabilization
- Section 6: Sediment Control

Instructor/Proctor

John Price of Price and Company, Inc. from Grand Rapids Michigan will lead the Review Course. Dan Salsinger from Ero-Tex in Itasca will proctor the exam.
